## CLEANMATIC™

An Ink Wash Concentrate for Automatic Screen Washing Equipment; Contains No Hydrocarbons

**Cleanmatic** is a concentrated screen cleaning concentrate intended (after dilution) for use in automatic screen washing equipment. It is especially effective with plastisol and UV-cured inks.

**Cleanmatic** is biodegradable, virtually odorless, and contains anti-foaming agents. It is classified as VOC-free (EG Directive 1999/13/EG of 11.02.1999), with steam pressure <0.01 kPa.

**Ulano Total Screen Chemistry** products are manufactured to the highest standards in the industry. They are completely compatible with all Ulano stencil systems—Direct Emulsions, CDF® Direct-Films, Indirect System Photographic Films, Knifecut Stencil Films, and Ulanoline® Direct/Indirect Films. Together, they comprise a comprehensive system of screen care and stencil production products for the quality-oriented screen printer. **Ulano Total Screen Chemistry** products enable screen printers to make consistent, trouble free stencils—every time.

#0290- 5M SB/EG- 9/2006

### PRODUCT FEATURES

**Advanced formulation**

**Concentrated; convenient**

**Environmentally friendly**

**Extended shelf life**

### BENEFITS

Permits varied dilution according to the ink (1:3 or 4 for UV or plastisols; 1:1 for PVCs)

Contains anti-foaming agents

Can be re-homogenized after low temperature storage

Can be added directly to the fill tank of automatic screen washing equipment, then diluted according to the type of ink to be removed

Concentration reduces shipping and packaging costs

Virtually odorless

Very high flash point (226° F.; 108° C.)

Classified VOC-free; biodegradable

2-year storage in original container (68 - 77° F.; 20 - 25° C.)

### FORMATS

**Cleanmatic** is available in quart (946 ml.), U.S. gallon (3.78 lt.), 5 U.S. gallon (18.92 lt.), and 50 U.S. gallon (189.25 lt.) units. Quart units are packaged 12 per carton; U.S. gallon units are packaged 4 per carton; 5 and 50 U.S. gallon units are packaged individually.
